SCANSTRUT®

DS-HD10-BLK Double Horizontal Cable Seal

The DS-HD10-BLK double horizontal cable seal was designed to eliminate time-consuming and sub-standard routing of roof top lights and electronics.

Our seal helps you achieve a sleek, easy-to-fit, and 100% watertight installation every time. Perfect for routing two cables externally to internally on the roof of boats. Its low-profile design provides the best water ingress protection in class.
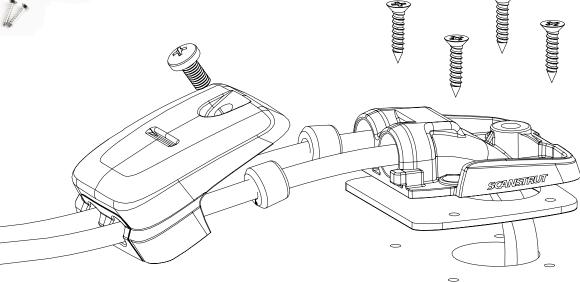

- Designed for two cables.
- IP68 watertight seal.
- Install 2 cables – select any combination:
  o 6mm x 2
  o 7mm x 2
  o 8mm x 2
  o 9mm x 2
  o 10mm x 2
  o Blank x 2

- Compact footprint - just 66.5mm (2.61") W / 75.1mm (2.95") L / 28.5 mm (1.12") H.
- Easy fit cable routing that cuts down your installation time through wood, metal, and GRP.
- Black high impact plastic.
- Includes 316 stainless steel fixings and a waterproof 3M gasket.
- The low-profile construction is impact-resistant and provides extra protection from water.
- Our materials have been selected to be UV- stable and hard-wearing.
- No messy sealant on bungs.
